

**Introduction to Electronic Music
Quiz #1**

NAME:

1. What were some of the very earliest technological developments from the 1800s and earlier (but **NOT** including the *Singing Arc*, *Telharmonium*, and *Theremin*) that might be said to have led to experiments with electronic instruments around the turn of the century? (Be sure to include both musical instruments and non-instrument technologies in your answer.)

2. List/describe two important distinguishing features of and/or fact about each of the following instruments:
 - Singing Arc

 - Telharmonium

 - Theremin

3. What effect did the Teleharmonium have on other musicians who heard about it?

4. Who was Clara Rockmore and why is she remembered?
